Topics Discussed:

One of the most important subject we discussed was about the platforms we are going to use for the development of our application.

After the technical discussion we got ourselves in the analysis of the market and the potential customers which can use this kind of program.

Even though we are still working on clarifying the idea and the simplicity of the program we tried to sketch on paper some guidelines on what the user can do in our program.

We also made a blueprint of the user interfaces.

Separation of responsibilities took place seriously.

Decisions Made:

About the roles :

Administrative

Arbi Elezi -> Team Leader

Gerild Pjetri -> Work Progress Manager
